### And What Have You

By BUB CRAIG

At one time or another all of us have complained about our property taxes being too high. But just how high is too high? How do you determine if your taxes are too high?

Well, we guess that you could say that they are higher than you can afford to pay, but then what is not higher than you can afford in these days of inflation? You might base it on services rendered but this will not work either since all of us pay school taxes whether we have children in school or not.

Maybe you do not have anyone in school, but someone paid for your education and now you are returning the favor by educating someone else's children.

About the only way to judge how high taxes are is by comparing what other people are paying in similar cities in your area.

And when you do this you may be in for a surprise because the total tax bill for a piece of property located in Hamlin is cheaper than a similar piece of property located in either Anson or Stamford.

Say you owned a home valued at \$20,000 located in each of the three cities. Your taxes in Stamford would be \$451.60, in Anson they would be \$373.80 and in Hamlin they would be \$358.80.

The city taxes on your \$20,000 home in Stamford would be \$216.00, in Anson it would be \$120.00 and in Hamlin it would be \$130.00. Your school taxes in the Stamford district would be \$172.80, in Anson they would be \$182.00 and in Hamlin they would be \$150.00.

Your house in Stamford would be assessed \$24.00 for hospital district taxes and your home in Hamlin would be assessed \$40.00 for the hospital district. In Anson you would not have to pay a hospital tax but would have to pay a Water District tax of \$33.00.

Of Course, all three of the houses would pay the same county and state taxes of \$38.80.

The big difference between the three towns is not in the rate but in the assessment ratio. In Hamlin the city, school and hospital all assess at 50 percent of the value with the city rate at \$1.30, the school rate at \$1.50 and the hospital at 40 cents.

But in Stamford the city assesses at 80 percent of value and the school and hospital at 60 percent of value. The Stamford city tax rate is \$1.35, the school rate is \$1.44 and the hospital rate is 20 cents.

The City of Anson assesses at 40 percent, the school at 70 percent and the water district at 55 percent. The Anson City tax rate is \$1.50, the school rate is \$1.30 and the water district rate is 30 cents.

The county rate is 97 cents and is assessed on 20 percent of the value.

The effective rate (the total tax rates based on 100 percent of value) for the three towns is: Stamford, \$2.26; Anson, \$1.87; and Hamlin, \$1.80.

To use these figures you must use the full value and not the value shown on your Hamlin tax receipts. To use the figure on your Hamlin tax receipts you would have to double the rates because the tax values are on 50 percent of value.

The most expensive taxing unit in the county is the City of Stamford where the tax on this \$20,000 home would be \$216.00. This is followed by the Anson School District at \$182.00 and then the Stamford School District at \$172.80. Your city taxes in Hamlin would be \$130.00 and your school taxes would be \$150.00.

So the next time you see a member of the Hamlin City Council or the Hamlin School Board maybe you should thank them for the fine job they have done in holding down

## Farm Bureau Promoting Food Gift Certificates

Jones County Farm Bureau has joined an all-out statewide effort to increase consumption of meat, poultry and dairy products during the holiday season, according to J. C. Moss of Anson, president.

The organization will promote the giving of certificates for these products as holiday gifts, he said. "We think this is a positive approach in assisting those commodities which are in serious trouble," he explained.

The local Farm Bureau leader said there are two ways this can be done conveniently:

(1) Through buying gift certificates (redeemable in those commodities) at grocery stores. "We are providing gift certificates to stores which do not have their own, along with colorful gift envelopes," he said.

(2) Through giving a check or money order. Farm Bureau will provide an attractive message card (explaining the gift idea) along with a nice gift envelope. The County Farm

Bureau office at Anson in Jones County has a supply of both items, free of charge.

Committees of the county organization are calling on grocery stores to encourage their participation, he added. Farm Bureau is also providing the necessary supplies (certificates, window poster, etc.), and will publicize the promotion through advertising and publicity releases. Committees are already busy on these projects, he said.

The Texas Farm Bureau is helping to coordinate the effort on a statewide basis along with many other agricultural groups. The Texas Department of Agriculture has committed its TAP (Texas Agricultural Products) program to the promotion. The Texas Retail Grocers Association and large food chains are also participating.

State Farm Bureaus in several other states are carrying on similar promotions, Mr. Moss said. "This can truly be an effective campaign if we all work at it," he declared.

FRUITCAKE CONTAINS CARROTS—Brandy, fruits and chopped nuts go into this Christmas cake, but grated carrots make it something different, according to Agriculture Commissioner John C. White. A slice is just the thing to serve guests, and a whole cake makes a perfect gift.

## Farm-facts

Compiled From Sources Of The Texas Department of Agriculture  
John C. White, Commissioner

REMEMBER the predictions earlier this year of a "huge" crop of wheat for 1973 and 1974? Well, now that the figures are in and now that Mother Nature has done her thing, the wheat crop is still a record—but of only modest proportions.

Fact is, the current production estimate for the nation is now just four per cent above last year's record crop; this is well below expectations. In Texas, the latest wheat estimate is 52,800,000 bushels. This is just about half of what the state's wheat farmers produced in the previous year.

## Spirited COOKING

#### Fondue & You

Are you fond of fondue? If your heart melts at the taste, but your mind wilts at the thought, cheer up, you don't have to spend a lot of bread on fancy equipment and cooking classes to have a fondue party. Fondue can easily be prepared in any heavy pan on the range. Set the pan over a candle warmer when serving. And you and your guests can then enjoy fondue's flavor, fun and friendliness.

#### GOLDEN CHEESE FONDUE

- 1 pound Cheddar cheese, shredded
- 1 tablespoon flour
- 1-1/2 ounce scotch, Bourbon, or blended whiskey

Add a little of the hot cheese mixture to the beaten egg and then stir back into pan. Stir smooth. Serve with crusty chunks of bread for dipping. Makes 4 servings.

Decorative Lighting Guild of America  
A letter from Dennis W. Bakke, Deputy Assistant Administrator for Energy Conservation and Environment, Federal Energy Office, included the following paragraph: "During the first week of May 1974, in a meeting with Christmas lighting retailers and manufacturers, I stated that the FEO has no plans to impose any bans on Christmas lighting this year. Even if an energy crisis should develop, the odds are we would not single out Christmas lighting for voluntary or involuntary curtailment. I mentioned that we would make a positive statement — to the general public in September or October — to the effect that there will be no ban on Christmas lighting in 1974. This remains our policy."

We urge you to make up for last year's gloom by making this Christmas the most festive, most brightly lighted ever. We're sure that as a result the American public will be in a happier frame of mind — and that we will all benefit.

Sincerely,  
Pete Gilbert, President

## FROM THE FILES . . .

### FIFTY YEARS AGO (December 5, 1924)

The Hamlin School Parent-Teacher Association will meet in regular business session on Tuesday, Dec. 9th, at 3:30 p.m., at the School Building. School patrons are cordially invited to attend this meeting.

It looks like some people think any old car is theirs for the taking. Hallie Medford is minus a Ford car, a perfectly good Ford, since last Saturday night. It was left in front of the Hotel. And no trace is yet heard of the car.

We wish to make announcement that on next Wednesday, Dec. 10th, a canning demonstration and inter-community affair will be held at the Wise Chapel school building, between the hours of ten and three.

The 1925 Auto and Truck license are now ready at the City Hall. Bring your 1924 receipts with you. Come early and avoid the rush.

The ladies of the First Baptist Church will open a Bazaar on the afternoon of the 12th of December, continuing through the 13th, at Barrow Furniture Store. Come and buy dainty hand-made Christmas presents at reasonable prices.

You are cordially invited to attend a Fine Arts Recital given by the pupils of Mrs. Leslie S. Cooper at the High School Auditorium, Tuesday night, December 9th.

### TWENTY YEARS AGO (December 3, 1954)

Proposal for permission to investigate the feasibility of a huge water project north and west of Hamlin was approved last weekend by the Texas Board of Water Engineers, according to advice received this week by officials of the Water Resources Committee of the Hamlin Chamber of Commerce.

Formal Christmas opening and unveiling of Christmas windows of business concerns in Hamlin will be combined with festivities of the December Trades Day scheduled for next Wednesday, declares Delma Shelburne, manager of the Hamlin Chamber of Commerce.

Interest in the proposed city street paving program for Hamlin continues to mount as more property owners report to the City Hall and post their paving assessments, reports Roy Chastain, member of the C. C. Asphalt Paving Company firm.

Members of the Good Neighbor Home Demonstration Club of Neinda surprised Mrs. A. V. Westmoreland Wednesday morning at 8:30 when they staged a surprise coffee. The Westmorelands had recently moved into a new home and the coffee was a "housewarming" gesture.

## Neinda Philosopher Says Maybe What We Need Is A Horse-Trader

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One appears slightly riled up this week, but he'll get over it.

Dear editor:

A friend asked me the other day why I didn't think up something that'd turn this crazy economy around. You know, auto companies can't sell their cars so they raise the price, sugar gone out of sight, unemployment rising as fast as inflation, college costs going up and kids getting no better educated than they were when it costs only half as much, cattle prices down to nearly nothing and meat prices about as high as ever. . . things like that.

I'll tell you, if he's looking to me for the answer he's looking in the wrong direction, but I did come up with one partial suggestion that might help.

What Washington needs more than anything else right now is a horse-trader.

Take the grain deal with Russia last year. Here we were short on oil and long on

grain, and there was Russia long on oil and short on grain. So what do we do? We sell Russia a fourth of our total supply of grain at half-price and on top of that we lend her the money to buy it with.

Why in thunderation couldn't we have swapped grain for oil?

No. We turn our big deals over to people who wouldn't know a slew-footed, smooth-mouthed mare from a two-year-old sound plow horse and we wind up with a spavined mule. Probably mortgaged.

And it's still going on. Just last night I read that we have now made a deal with Syria. We are selling her 22 million dollars worth of grain, to be paid for over the next 20 years at 3 per cent interest,

with no payments or interest due the first two years. I guess as an inducement to sign the contract. With an inducement like that I'd sign nearly anything. No mention of oil, and nothing said about what happens if about 10 years from now a new government of Syria says we can't pay you back and we done ate the grain.

You reckon it'd help if we called in the professors who're doing our negotiating around the world, put them back to trading in rare books and put the hard work into the hands of some good horse-traders?

Yours faithfully,  
J. A.

## COUNTY AGENT—

### Agent Cites Importance of Crop, Livestock Survey

"One of the reasons for today's low cattle prices is excessive numbers of livestock. That is why," says Kirby Clayton, County Agent for the Texas Agricultural Extension Service. "It is so important to have good estimates of livestock

numbers. We must know our own position."

The Texas Crop and Livestock Reporting Service will soon be mailing out questionnaires concerning livestock and crop numbers to a selected group of Texas ranchers.

"It's important," says Clayton, "to complete the questionnaire correctly and return it as soon as possible. Livestock and crop estimates are made on the basis of these reports."

The reports, which are held in strict confidence, are the only source of information on crop and livestock numbers available to producers.

"Ranchers who disregard the questionnaires or give wrong information only hurt themselves," says Clayton. "If there were no government estimates, marketing firms could still get their own

estimates but these would probably be only for private use. This would put the individual rancher at a definite bargaining disadvantage."

So, ranchers are really helping themselves when they complete the questionnaire, points out Clayton.

### GED Tests Set In Rule

General Educational Development Tests will be given in the Rule High School at 8 a.m. Thursday, Dec. 12. Irene Stewart is chief examiner.

Five tests will be given in

English, literature, social studies, science and mathematics. If a person passes these five tests, the Texas Education Agency will issue a High School Equivalency Diploma. This diploma meets the educational requirement for employment as well as partial requirement for college entrance or job training schools.

A fee of \$15 is charged for all five tests and it takes about two hours for each test. A person must be eighteen (or at least 17 years old) and has been out of school one full calendar year. If a person is seventeen when the tests are taken the diploma will not be issued until the person is eighteen.

For additional information call the superintendent's office at Rule.

## Stage Band Projects

The Hamlin Stage Band members announce projects in their current money raising efforts to finance a 16-day trip to Europe in July.

The members are continuing several projects and announce new plans and changes in others.

The 24-member stage band, directed by Tim Jones, has been invited by International Jazz Tours, Inc., to participate in the tour and present concerts in five cities. Cost of the trip would be \$30,000 according to Jones.

The members are announcing new projects and plans and changes in continuing projects.

A gigantic rummage sale is planned Thursday, Friday and Saturday in the building formerly occupied by the McDonald Co. on South Central, north of Farmers and Merchants National Bank.

Some of the items to be featured are pillows, bedding, furniture, toys, flower arrangements, dishes, weathered wood, new and used clothing, baby clothing, appliances, Christmas decorations and plants.

Movies for youngsters each Saturday afternoon will be presented from 2 to 4 p.m. in rear of the building just north of the offices of Willingham and Watts, attorneys. Admission is 75 cents and parents of stage band members supervise. Concessions are sold during intermission.

Last week's movie was attended by 50 children and the total received exceeded \$60.

Two locations are now being used for waste paper collection. A trailer is at the Kenneth Young home, 501 N. W. Ave. I and another trailer for deposit of paper is on the lot directly south of the post office. Persons wishing to have their paper collected may call Mrs. Gerald Young at 576-3409.

Aluminum foil and pie plates are now being accepted along with the aluminum cans. Anyone with

aluminum to donate may take it to the trailer at the home of Joe E. Ford, 130 S. W. Ave. J, or call Gary Ford at 576-3950 to have it collected.

The turkey shoot originally scheduled for Nov. 30 was reset for Saturday, Dec. 14 at 10 a.m. The event will be held at the Aspermont Gun Club. Dec. 12 Santa Claus will be at the office of Waggoner

Insurance Company at 251 South Central and will pose for pictures with children. Tim Jones will be taking color portraits. Each color portrait with Santa will be \$3.

The band has been asked by the Stamford Chamber of Commerce to present a concert from 3 to 4 p.m., Saturday, Dec. 21, on the square in front of the post office in Stamford.

In spite of popular belief, the apple was not mentioned in the Bible as the fruit that Eve ate. It was merely described as "the fruit of the tree which is in the midst of the garden." Probably the apple got that reputation because it is such a tempting, irresistible, good-tasting fruit.

Apples, which nutritionists call a protective food, contain natural sugars that are easily digested, give instant energy, and don't injure teeth.

The apple is the most versatile of fruits — dice and slice for salads, make it into sauce, bake it, juice it — use it with meats, poultry, in cakes and cookies and pies. There are hundreds of apple recipes. You can make some up yourself.

## CONSERVE AND SAVE ON ELECTRIC COOKING

★ For best results, use flat bottom utensils with tight fitting covers. Utensils of medium or heavy weight aluminum conduct heat faster, transfer heat evenly and respond quickly to temperature changes.

★ Match the utensil to the size of the unit. Use 8 inch units for large utensils. Use 6 inch units for small to average sized pans.

★ Use high setting for a quick start for any surface cooking, or to boil water quickly. When cooking temperature is reached, switch to a lower setting.

★ Do not pre-heat the oven for roasting or broiling, but do pre-heat the oven to the temperature given in the recipe for baking.

## NEWS AND VIEWS...

### And What Have You

By BOB CRAIG

At one time or another all of us have complained about our property taxes being too high. But just how high is too high? How do you determine if your taxes are too high?

Well, we guess that you could say that they are higher than you can afford to pay, but then what is not higher than you can afford in these days of inflation? You might base it on services rendered but this will not work either since all of us pay school taxes whether we have children in school or not.

Maybe you do not have anyone in school, but someone paid for your education and now you are returning the favor by educating someone else's children.

About the only way to judge how high taxes are is by comparing what other people are paying in similar cities in your area.

And when you do this you may be in for a surprise because the total tax bill for a piece of property located in Hamlin is cheaper than a similar piece of property located in either Anson or Stamford.

Say you owned a home valued at \$20,000 located in each of the three cities. Your taxes in Stamford would be \$451.60, in Anson they would be \$373.80 and in Hamlin they would be \$358.80.

The city taxes on your \$20,000 home in Stamford would be \$216.00, in Anson it would be \$120.00 and in Hamlin it would be \$130.00. Your school taxes in the Stamford district would be \$172.80, in Anson they would be \$182.00 and in Hamlin they would be \$150.00.

Your house in Stamford would be assessed \$24.00 for hospital district taxes and your home in Hamlin would be assessed \$40.00 for the hospital district. In Anson you would not have to pay a hospital tax but would have to pay a Water District tax of \$33.00.

Of Course, all three of the houses would pay the same county and state taxes of \$38.80.

The big difference between the three towns is not in the rate but in the assessment ratio. In Hamlin the city, school and hospital all assess at 50 percent of the value with the city rate at \$1.30, the school rate at \$1.50 and the hospital at 40 cents.

But in Stamford the city assesses at 80 percent of value and the school and hospital at 60 percent of value. The Stamford city tax rate is \$1.35, the school rate is \$1.44 and the hospital rate is 20 cents.

The City of Anson assesses at 40 percent, the school at 70 percent and the water district at 55 percent. The Anson City tax rate is \$1.50, the school rate is \$1.30 and the water district rate is 30 cents.

The county rate is 97 cents and is assessed on 20 percent of the value.

The effective rate (the total tax rates based on 100 percent of value) for the three towns is: Stamford, \$2.26; Anson, \$1.87; and Hamlin, \$1.80.

To use these figures you must use the full value and not the value shown on your Hamlin tax receipts. To use the figure on your Hamlin tax receipts you would have to double the rates because the tax values are on 50 percent of value.

The most expensive taxing unit in the county is the City of Stamford where the tax on this \$20,000 home would be \$216.00. This is followed by the Anson School District at \$182.00 and then the Stamford School District at \$172.80. Your city taxes in Hamlin would be \$130.00 and your school taxes would be \$150.00.

So the next time you see a member of the Hamlin City Council or the Hamlin School Board maybe you should thank them for the fine job they have done in holding down

## Farm Bureau Promoting Food Gift Certificates

Jones County Farm Bureau has joined an all-out statewide effort to increase consumption of meat, poultry and dairy products during the holiday season, according to J. C. Moss of Anson, president.

The organization will promote the giving of certificates for these products as holiday gifts, he said. "We think this is a positive approach in assisting those commodities which are in serious trouble," he explained.

The local Farm Bureau leader said there are two ways this can be done conveniently:

(1) Through buying gift certificates (redeemable in those commodities) at grocery stores. "We are providing gift certificates to stores which do not have their own, along with colorful gift envelopes," he said.

(2) Through giving a check or money order. Farm Bureau will provide an attractive message card (explaining the gift idea) along with a nice gift envelope. The County Farm

Bureau office at Anson in Jones County has a supply of both items, free of charge.

Committees of the county organization are calling on grocery stores to encourage their participation, he added. Farm Bureau is also providing the necessary supplies (certificates, window poster, etc.), and will publicize the promotion through advertising and publicity releases. Committees are already busy on these projects, he said.

The Texas Farm Bureau is helping to coordinate the effort on a statewide basis along with many other agricultural groups. The Texas Department of Agriculture has committed its TAP (Texas Agricultural Products) program to the promotion. The Texas Retail Grocers Association and large food chains are also participating.

State Farm Bureaus in several other states are carrying on similar promotions, Mr. Moss said. "This can truly be an effective campaign if we all work at it," he declared.

FRUITCAKE CONTAINS CARROTS—Brandy, fruits and chopped nuts go into this Christmas fruitcake, but grated carrots make it something different, according to Agriculture Commissioner John C. White. A slice is just the thing to serve guests, and a whole cake makes a perfect gift.

REMEMBER the predictions earlier this year of a "huge" crop of wheat for 1973 and 1974? Well, now that the figures are in and now that Mother Nature has done her thing, the wheat crop is still a record—but of only modest proportions.

Fact is, the current production estimate for the nation is now just four per cent above last year's record crop; this is well below expectations. In Texas, the latest wheat estimate is 52,800,000 bushels. This is just about half of what the state's wheat farmers produced in the previous year.

- QUICK COFFEE CAKE**
- Ingredients:
- 1 recipe crunchy topping (recipe below)
  - 3/4 C. milk

A letter from Dennis W. Bakke, Deputy Assistant Administrator for Energy Conservation and Environment, Federal Energy Office, included the following paragraph: "During the first week of May 1974, in a meeting with Christmas lighting retailers and manufacturers, I stated that the FEO has no plans to impose any bans on Christmas lighting this year. Even if an energy crisis should develop, the odds are we would not single out Christmas lighting for voluntary or involuntary curtailment. I mentioned that we would make a positive statement — to the general public in September or October — to the effect that there will be no ban on Christmas lighting in 1974. This remains our policy."

We urge you to make up for last year's gloom by making this Christmas the most festive, most brightly lighted ever. We're sure that as a result the American public will be in a happier frame of mind — and that we will all benefit.

Sincerely,  
Pete Gilbert, President

## understanding YOUR CAR

FOR SAFETY AND ECONOMY

**DRIVING FOR ECONOMY**

Like almost everything else, gasoline and petroleum products are more expensive today than they used to be. Real savings can be achieved by knowing a few basic things about how to drive and maintain your car for maximum economy and efficiency.

For example, fuel economy possibilities start the minute the engine is started. Don't let

the car idle until it warms up; instead gently drive away after it has run no more than a minute. Idling takes minutes of gas-wasting. If the engine burns gas for 10 minutes every winter morning that's roughly 50 minutes per week and, depending on car and idle speed, the gasoline wasted this way could fuel a trip of up to 400 miles. Another tip from Gulf Consumer Information concerns reducing the weight of the car. Fuel economy amounts to about 2 miles per gallon for every 100 lbs. of weight loss. In other words, a bag of traction sand or assorted other odds and ends could total anywhere from 200-500 lbs. If this weight were removed, mileage would be increased by about one mile per gallon. It may sound insignificant, but in the course of a year — based on 1,100 gallons used per household — that could provide enough additional gasoline for a trip from New York to Florida.

More information on ways to conserve gasoline is available from Gulf Consumer Information; covering everything from trip planning to tests and tune-ups. Write for your free copy of "Car Care Today" P. O. Box 1403-J, Houston, Texas 77001.

Neinda Philosopher Says Maybe  
What We Need Is A Horse-Trader

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One appears slightly riled up this week, but he'll get over it.

Dear editor:  
A friend asked me the other day why I didn't think up something that'd turn this crazy economy around. You know, auto companies can't sell their cars so they raise the price, sugar gone out of sight, unemployment rising as fast as inflation, college costs going up and kids getting no better educated than they were when it costs only half as much, cattle prices down to nearly nothing and meat prices about as high as ever. . . things like that.

I'll tell you, if he's looking to me for the answer he's looking in the wrong direction, but I did come up with one partial suggestion that might help.  
What Washington needs more than anything else right now is a horse-trader.

COUNTY AGENT—

Agent Cites Importance of Crop, Livestock Survey

"One of the reasons for today's low cattle prices is excessive numbers of livestock. That is why," says Kirby Clayton, County Agent for the Texas Agricultural Extension Service, "it is so important to have good estimates of livestock

Out of town visitors attending the Golden Wedding Anniversary celebration of Mr. and Mrs. Homer Raney were Mr. and Mrs. Jack Doty of Garden City, Kans., Mr. and Mrs. Phil Hubert of Dallas, Mr. and Mrs. Charles Jeffries of Fort Worth and Mr. and Mrs. J. E. Humphreys of Lubbock.

numbers. We must know our own position."

The Texas Crop and Livestock Reporting Service will soon be mailing out questionnaires concerning livestock and crop numbers to a selected group of Texas ranchers.

"It's important," says Clayton, "to complete the questionnaire correctly and return it as soon as possible. Livestock and crop estimates are made on the basis of these reports."

The reports, which are held in strict confidence, are the only source of information on crop and livestock numbers available to producers.

"Ranchers who disregard the questionnaires or give wrong information only hurt themselves," says Clayton. "If there were no government estimates, marketing firms could still get their own

estimates but these would probably be only for private use. This would put the individual rancher at a definite bargaining disadvantage."

So, ranchers are really helping themselves when they complete the questionnaire, points out Clayton.

GED Tests  
Set In Rule

General Educational Development Tests will be given in the Rule High School at 8 a.m. Thursday, Dec. 12. Irene Stewart is chief examiner.

Five tests will be given in

English, literature, social studies, science and mathematics. If a person passes these five tests, the Texas Education Agency will issue a High School Equivalency Diploma. This diploma meets the educational requirement for employment as well as partial requirement for college entrance or job training schools.

A fee of \$15 is charged for all five tests and it takes about two hours for each test. A person must be eighteen (or at least 17 years old) and has been out of school one full calendar year. If a person is seventeen when the tests are taken the diploma will not be issued until the person is eighteen.

For additional information call the superintendent's office at Rule.

## Stage Band Projects

The Hamlin Stage Band members announce projects in their current money raising efforts to finance a 16-day trip to Europe in July.

The members are continuing several projects and announce new plans and changes in others.

The 24-member stage band, directed by Tim Jones, has been invited by International Jazz Tours, Inc., to participate in the tour and present concerts in five cities. Cost of the trip would be \$30,000 according to Jones.

The members are announcing new projects and plans and changes in continuing projects.

A gigantic rummage sale is planned Thursday, Friday and Saturday in the building formerly occupied by the McDonald Co. on South Central, north of Farmers and Merchants National Bank.

Some of the items to be featured are pillows, bedding, furniture, toys, flower arrangements, dishes, weathered wood, new and used clothing, baby clothing, appliances, Christmas decorations and plants.

Movies for youngsters each Saturday afternoon will be presented from 2 to 4 p.m. in rear of the building just north of the offices of Willingham and Watts, attorneys. Admission is 75 cents and parents of stage band members supervise. Concessions are sold during intermission.

Last week's movie was attended by 50 children and the total received exceeded \$60.

Two locations are now being used for waste paper collection. A trailer is at the Kenneth Young home, 501 N. W. Ave. 1 and another trailer for deposit of paper is on the lot directly south of the post office. Persons wishing to have their paper collected may call Mrs. Gerald Young at 576-3409.

Aluminum foil and pie plates are now being accepted along with the aluminum cans. Anyone with

aluminum to donate may take it to the trailer at the home of Joe E. Ford, 130 S. W. Ave. J, or call Gary Ford at 576-3950 to have it collected.

The turkey shoot originally scheduled for Nov. 30 was reset for Saturday, Dec. 14 at 10 a.m. The event will be held at the Aspermont Gun Club. Dec. 12 Santa Claus will be at the office of Waggoner

Insurance Company at 251 South Central and will pose for pictures with children. Tim Jones will be taking color portraits. Each color portrait with Santa will be \$3.

The band has been asked by the Stamford Chamber of Commerce to present a concert from 3 to 4 p.m., Saturday, Dec. 21, on the square in front of the post office in Stamford.

## NEWS FROM OLD GLORY

By BERNICE D. WHITE

The Thanksgiving weekend brought lots of visitors and cold weather to this area. A few snow flurries fell Friday.

Charlie Letz, a longtime resident and rural carrier of this area, who passed away Sunday Nov. 24 will be missed by his many friends and relatives here and also many who lived in other areas.

Among those from other towns who came to the funeral were people from Morinci, Ariz., Oklahoma City, Okla., Fort Worth, Midland, Levelland, Lubbock, Wichita Falls, Houston, Woodstock, Jacksonville, Palestine, Haskell, Mattson, Hamlin, Stamford, Weatherford, Abilene, Sagerton, Rule, Clyde and Stephenville.

Mrs. Ed Letz hosted the Variety Club Tuesday of last week. Ten members and one visitor, Mrs. Tony Letz, were present. The ladies re-elected the same officers for another year. They also drew names for their Christmas Party to be held in the home of Mrs. Lisbon Letz Tuesday, Dec. 10.

Visitors in the home of Mr. and Mrs. Ed Letz Thanksgiving included their daughter and husband, Mr. and Mrs. John Zugg of Odessa, their two other daughters, Reva Letz of Lamesa, and Regina Letz of Midland. Harvey Browning of Snyder was also a visitor.

On Friday, Saturday and Sunday, Mrs. Ed Letz and daughter Reva of Lamesa made a trip to Las Cruces, N. Mex., where Russell is attending New Mexico State University. They got to see Russell play in two basketball games while there.

Mrs. Katie Gerloff spent Thanksgiving in Stamford in the home of Mr. and Mrs. Oliver Reed.

Mr. and Mrs. B. R. Johnson spent the Thanksgiving weekend in Abilene visiting in the home of their son and

family, Mr. and Mrs. Glen Johnson and children.

Visitors in the home of Mr. and Mrs. Morris Garner last week included their son and family, Mr. and Mrs. Loy Garner and daughters of Abilene, other visitors during the weekend included Mr. and Mrs. Lee Sawyers of Stamford and Mr. and Mrs. John Duncan of Rule.

Mr. and Mrs. Kent Denton and children at Mesquite, also Mr. and Mrs. Mike Parker, and Mr. and Mrs. Freddy Letz all of Fort Worth.

Ben Bullard with the Texas Farm Bureau at Waco conducted an Auto Safety Demonstration at Old Glory School recently.

Students participating in the demonstration were Doug Vahlenkamp and Beverly Neuman. Driving at a speed of 20 m.p.h., Doug showed a total of 53.7 feet for stopping, and Beverly stopped at 58.8 feet.

Coach A. L. Hunter, representing the faculty drove at a speed of 30 m.p.h. and stopped at a total of 74.6 feet.

Deputy Rayborn Fitts of Aspermont drove at 40 m.p.h. and required 104.1 feet for stopping at that speed.

In spite of popular belief, the apple was not mentioned in the Bible as the fruit that Eve ate. It was merely described as "the fruit of the tree which is in the midst of the garden." Probably the apple got that reputation because it is such a tempting, irresistible, good-tasting fruit.

Apples, which nutritionists call a protective food, contain natural sugars that are easily digested, give instant energy, and don't injure teeth.

The apple is the most versatile of fruits — dice and slice for salads, make it into sauce, bake it, juice it — use it with meats, poultry, in cakes and cookies and pies. There are hundreds of apple recipes. You can make some up yourself.

## CONSERVE AND SAVE ON ELECTRIC COOKING

★ For best results, use flat bottom utensils with tight fitting covers. Utensils of medium or heavy weight aluminum conduct heat faster, transfer heat evenly and respond quickly to temperature changes.

★ Match the utensil to the size of the unit. Use 8 inch units for large utensils. Use 6 inch units for small to average sized pans.

★ Use high setting for a quick start for any surface cooking, or to boil water quickly. When cooking temperature is reached, switch to a lower setting.

★ Do not pre-heat the oven for roasting or broiling, but do pre-heat the oven to the temperature given in the recipe for baking.

GIFTS FOR AN OLD-FASHIONED FARM & RANCH CHRISTMAS

Christmas in the country conjures up thoughts of tables laden with home-grown foods fresh from a crackling wood-burning stove. Steaming meat and poultry dishes and an array of delicious dairy products!

While it isn't possible to bring back the past, we can still enjoy the foods that made Christmas in the country such a delightful experience.

And you can give this treat for that someone special on your Christmas list. Just go to your favorite grocery store and ask for a gift certificate redeemable in meat, poultry and dairy products.

Or, if you'd prefer to give by check or money order, come by our office and pick up a supply of colorful gift envelopes and message cards.
